

Rivnut® PN – Plusnut®

The Rivnut® PN – Plusnut® has been designed to provide the ultimate pull out strength in thin sheet metals and plastic. Its slotted body splits into four legs providing a wide load-bearing surface on the backside of the parent material. The Rivnut® PN – Plusnut® also features the widest grip range of any blind threaded nut. A grip ID mark is included on the head of the fastener for grip range identification.

Class 2B or Metric Class 6H threads
Steel C1010-1008
Cadmium plating per QQ-P-416

Note 1: The product on this page is made from Steel ("S" prefix in product code) with Cadmium plating. It is also available in Stainless Steel ("SS" for the prefix) or Aluminum ("A" for the prefix).

Note 2: Countersunk head, other dimensions, finishes or design variations are available upon request.

Rivnut® PN – Plusnut® Pre-Bulbed

The Rivnut® PN – Plusnut® Pre-Bulbed has been designed to be installed using torque controlled hand or power tools. A simple torque hand tool (shown on page 29) can be packaged with this fastener for customer installation. Use of the C 350 power tool (shown on page 27) can install this fastener in variable thickness plastic materials such as those produced by rotational or blow molding. A grip ID mark is included on the head of the fastener for grip range identification.
